HOUSING SHORTAGE DUE TO THE LACK OF TRANSPORTATION

COUNTRY OVER FIVE MILLION
HOUSES SHORT ACCORDING
TO OFFICIAL

By RALPH COUCH
(Staff Correspondent United Press)
Washington, Aug. 20—Relief from the nation-wide housing shortage depends largely upon the rehabilitation of the railroads so that building material can be transported in larger quantities, according to reports to officials here.

"Building has been almost completely halted all over the country because material can not be obtained," said Chief Engineer Chase of the U. S. Housing Corporation, today.

"The shortage of houses now is more acute than it was at the time of the armistice when building had been suspended for nearly three years. Little improvement is expected until spring.

"The priority issue by the interstate commerce commission favoring movement of grain and coal made it impossible to get material. In only a few cities of the middle west has any considerable building been undertaken.

"Builders of practically all big cities now are making elaborate plans to begin work next spring. This however is dependent on being able to get a large supply of brick, sand, lumber and hardware. The country now is short five million buildings," according to estimates prepared by Mr. Chase.

NONPARTISANS APPEAL TO SUPREME COURT

(United Press)
St. Paul, Aug. 20—A. C. Townley, president of the Nonpartisan league, and J. Gilbert, former organizer, today filed notice of appeal with the state supreme court from order of the Jackson county court denying them a new trial. They were convicted on charges of violating the state espionage law following allegations that they advocated young men should not enlist in the army or navy during the war. Arguments on the appeal probably will be heard during the November term of court.

CENSUS FIGURES

(United Press)
Washington, Aug. 20—The census bureau today announced the population of Roseau county, Minn., as 13,395, an increase of 1967, or 17.3 per cent.

Admiral Beatty Opening Charity Fete in London in Aid of National Milk Hostels

Like General Pershing, Admiral Sirjust after he had opened a fete in aid David Beatty is called upon constant of the National Milk Hostels at Hanly to attend charitable affairs andover Lodge, Regent's Park, London, public gatherings. England's naval hero of the World War is seen here

MRS. ARTHUR MEIGHEN

Mrs. Arthur Meighen, wife of the Canadian premier, who is considered one of Canada's beauties.

PRESIDENT CALLS MEETING OF LEAGUE OF NATIONS ASSEMBLY

(United Press)
Washington, Aug. 20—President Wilson has issued a call for the first meeting of the league of nations assembly, it was announced at the state department. The date set for the meeting is November 15, it is understood, and the meeting place will be Geneva.

The call has been sent to Sir Eric Drummond, league secretary, who must make the text public.

POSTAL EMPLOYE FORCED TO RESIGN BECAUSE OF AGE

(United Press)
Chicago, Aug. 20—Rush D. Simmons, in charge of postoffice inspectors in the St. Paul district, has been appointed to succeed James E. Stuart, chief postoffice inspector here. Stuart was forced to resign because he had passed the age limit.

ST. CLOUD GETS ELKS CONVENTION

(United Press)
Virginia, Minn., Aug. 20—St. Cloud today was chosen as the 1921 convention city for the Elks of Minnesota. J. A. Freeman of St. Cloud, was named president of the organization.

POLISH OFFENSIVE CONTINUES ALONG THE ENTIRE FRONT

POLES HAVE ADVANCED MORE
THAN 50 MILES AND TAKEN
10,000 PRISONERS

By WEBB MILLER
(United Press Staff Correspondent)
London, Aug. 20—The Polish counter offensive continues successfully on the entire battle front except for a small sector in the Lemberg district, according to unofficial advice received here today.

The Polish have advanced more than fifty miles in the region of Warsaw, taking more than ten thousand prisoners and great quantities of ammunition. The wedge driven into Russian lines east of Warsaw not only threatens a complete break through but has practically cut off the red division north of that city and exposed them to capture or annihilation.

Poles Retake Lemberg

Berlin, Aug. 20—The bolsheviks, closing on the Vistula west of Warsaw, have captured Vlocavak, according to reports received here today. Polish forces advancing in the Danzig corridor have retaken Lemberg.

Wrangel Begins Big Offensive

Paris, Aug. 20—General Wrangel has begun an antibolshevik offensive in Crimea on a large scale, according to unofficial dispatches received at the French department office this afternoon.

Poles Claim the Recapture of Brest-Litovsk

Berlin, Via Wireless to United Press—Aug. 20—Advices from the American mission in Posen today, said Polish military officials in Warsaw had claimed recapture of Brest-Litovsk from the bolsheviks.

Germany Cooperating With Reds
Warsaw, Aug. 20—German citizens are cooperating with the bolsheviks everywhere in the invaded area, particularly in Pomerania, the Polish official communique reported today.

The reds were said to be employing terrorist methods to subdue the antibolshevik population in captured territory. Polish troops have pushed the enemy back eighty to one hundred miles from Warsaw.

American aviators operating with the Polish army have been singled out for praise by President Pilsudski.

Poles Put Another Army in Field

Warsaw, Aug. 20—Polish forces have flung another army into the field against Russian centers, an official communique announced today. After launching an attack against Pultask, thirty-five miles to the north of Warsaw, the statement said the army defending Warsaw on the north has been released and is smashing the Russian center.

Poles Capture Brest-Litovsk

Warsaw, Aug. 20—The important city of Brest-Litovsk, 120 miles from Warsaw, has been recaptured by the Polish army in its sweeping advance, the American commissioner at Berlin reported to the state department today.

Poles Making Encircling Movement

London, Aug. 20—(I. P. M.)—The Polish encircling movement between Dublin and Brest-Litovsk has taken Russia in the rear, completely shutting off the retreat of the army north of Warsaw and imprisoning them in a "bottle neck," according to reports today from Warsaw. Some semi-official sources reported that the Minak armistice negotiations are still delayed, the Russians openly charging the Poles with purposely evading action in the hope of a complete military victory.

Polish Reserves Hold Key to Situation

London, Aug. 20—Polish reserves, generally conceded to hold the key to the entire military situation, are being rapidly formed between Posen and Thorn, according to unofficial reports received here today. These forces constitute a formidable army in themselves, and are reported to be employed in an effort to completely stop the tide of the Russian army on the front northwest of Warsaw. The reds there are in danger of capture or annihilation. Neutral military experts had been led to believe the Polish had exhausted all their reserves and that unless they consolidated victory before the end of the week they

COUNTESS OF TURENNE

The countess of Turenne is visiting friends in this country.

faced a dangerous reversal when bolshevik reserves began to push into their lines.

DELEGATION OF WOMEN WILL VISIT HARDING

RAYMOND CLAPPER
(United Press Staff Correspondent)

Marion, Aug. 20—A delegation of newly enfranchised women voters was expected to make a pilgrimage to the front porch here during the campaign to hear Senator Harding discuss the issue which particularly appeals to women.

Republican party leaders figure the republicans' stand on the league of nations and prohibition will meet the approval of women and will culminate this new source of votes on these two issues through appeals on behalf of lower taxes, more efficient government and other subjects.

The campaign so far as Harding is concerned will be continued without personalities and principles appealing to prejudice, according to H. M. Dougherty, one of Harding's closest advisors.

TENNESSEE HOUSE NOT TO ADJOURN

Nashville, Aug. 20—Suffrage advocates in the Tennessee lower house took the offensive today in the fight to prevent reconsideration of the ratification of the suffrage amendment. Rep. Hall moved that the house adjourn until Monday morning. The two days in which a motion for reconsideration may be made expires at the end of today's session. The house voted forty-seven to forty-nine not to adjourn.

Nashville, Tenn., Aug. 20—The lower house of the Tennessee legislature met and adjourned today without an effort being made to force reconsideration of the suffrage ratification. The house will meet again tomorrow morning.

Speaker Walker did not bring up the motion for reconsideration although two legislative days in which he had the right to do so expired when the house adjourned.

Suffragists regard this as an admission that he had not been able to obtain sufficient strength to warrant efforts to overthrow ratification at this time.

It was explained that the motion to reconsider could be made by any member of the legislature when the house reconvenes tomorrow. Under the rules Walker had the exclusive right, during a two days' period, to move reconsideration. Now the two days have expired the right is no longer exclusively his.

The House Adjourns

The house later voted to adjourn until tomorrow morning at 9 o'clock.

To Give China a Bible.

Americans have spent \$132,000 so far to give China a Bible in its own language, the Mandarin. And just now they are agreeing to spend \$31,000 more to put the Bible into type and plates and to print and bind an edition. However, it is expected that copies will be sold to sufficient value to pay the printing bill, and it is further explained that these sums for expenditures are Mexican, which money is the standard of China at this time. It has been found by American scholars that the Chinese Mandarin is a wonderfully flexible language, capable of expressing almost every shade of meaning. More than twenty-five years has been the period of preparation, and foremost American and Chinese scholars have had part. The aim has been not only to give the Chinese people a Bible but to give them one that is pure in language and will set the standard for the republic that English-speaking world. This new Bible is for people who number more than a fourth of the world population.

WHOLESALE PRICES DROP; RETAIL PRICES REMAIN THE SAME

"CONSUMERS PICKET LINE" PROPOSED TO BRING RETAILERS TO TIME

(By United Press)

Washington, Aug. 20—"The Consumers Picket Line" may be the last step in an effort to send retail food prices downward.

Proposals that such a movement be worked out have reached the department of justice in letters from citizens, it was learned today. Under the proposal consumers carrying signs and banners with the wholesale prices of commodities printed on them should fall into line to picket establishments where retail prices have not been marked down.

Statistics issued by the department of labor show that while wholesale prices dropped in July as compared with June, the level of retail prices for the two months was practically the same.

With wholesale prices going down J. E. Weatherly, economic expert of the department of justice, today predicted that a drop in retail prices was only a matter of weeks.

CLEVELAND HONORS DEAD BALL PLAYER

(By United Press)

Cleveland, Aug. 20—Cleveland "called time" today to do honor to the memory of Ray Chapman, former shortstop of the American League baseball team, who died from being hit on the head Monday.

A great throng of men, women and children jammed the streets approaching St. John's Cathedral here as the long procession of automobiles led by the dull gray hearse bearing the body, approached the edifice. It was necessary for several dozen police to force their way through the crowd to the doors of the Cathedral.

STREET CAR STRIKE AVERTED IN ST. PAUL

(By United Press)

St. Paul, Aug. 20—Ordinances were introduced in the city council today providing for a six cent street car fare beginning Sept. 13 and demanding improved service. All danger of a strike of street car men threatened for tomorrow morning, was believed averted as a result of an announcement by the company that increased wages will be paid as from July 29.

COX CAN SPEAK AT FAIR LABOR DAY

(United Press)

St. Paul, Aug. 20—Governor James M. Cox, democratic presidential candidate, will be able to speak at the Minnesota State Fair on Labor Day, Sept. 6, it was announced by Fred Wheaton, democratic national committeeman from Minnesota. He planned to get in touch with Frank W. Murphy, state fair president, to get his consent for the Labor Day speech at the state fair. It was understood he wanted Cox to speak some other day. Cox's itinerary will not permit him to be here on any other day, it was said.

MINERS AND OPERATORS SETTLE DIFFERENCES

(United Press)

Washington, Aug. 20—John L. Lewis, president of the United Mine Workers of America, today telegraphed President Wilson that differences between bituminous coal miners and operators in Ohio, Indiana and Illinois had been adjusted "by means of agreement to consolidate in each state."

Palestine to Have Stamps.

Palestine is the only country which has no postage stamp of its own. But representatives of the Zionist government have informed London philatelists that this anomaly promises soon to be rectified, for, with the establishment of Palestine as the national home of the Jewish nation, it is believed little time will be lost in emulating the examples of other small nations called into being by mandates of the peace conference by the issuance of distinctive stamps. Stamps sold by British army post offices in adjacent former enemy territory are being utilized by overprinting with the word "Palestine."

MRS. HELEN B. LONGSTREET

Mrs. Helen B. Longstreet, widow of General Longstreet, famed Confederate commander, who has been appointed national chairman of the League of Woman Voters.

ENGLISH ATHLETE WINS 300 METER STEEPLE CHASE

HENRY FARRELL
(United Press Staff Correspondent)

Antwerp, Aug. 20—England today won the three thousand meter steeple chase in the Olympic games. Three Americans were placed.

Hodge, of England, was first over the finish line after a hard race.

Flynn, of the Paulista Athletic Club, New York, came in second. Ambrosini of Italy, and Mattson of Sweden, grabbed third and fourth places, nosing out Devanney of the Millrose Athletic association of New York, and Huelsenbeck of the New York A. C., who finished fifth and sixth. The time was ten minutes and two-fifths of a second.

Two Americans qualified for the finals in throwing the fifty-six pound weight. They were Pat McDonald of New York, and P. J. Ryan of New York. The other contestants who qualified were Lind and Svensen of Sweden, Dismund of Canada, and Peterson of England.

America met with reversal in the semi-finals of the four hundred meter run. F. J. Shea, former Pittsburgh star, won his heat, but was the only American to qualify. "Ted" Meredith, former Olympic hero, R. S. Emery of Chicago and G. S. Schiller of Los Angeles, were shut out.

COMPLETE NOME FLIGHT TOMORROW

(By United Press)

Fairbanks, Alaska, Aug. 20—Completion of the New York to Nome airplane flight tomorrow was the plan today of Captain Street, commanding the flight of four army airplanes. All the machines are in good condition, arriving here yesterday from Dawson.

Cox and Roosevelt at Head of the Parade at Dayton Before Official Notification

All smiles, Governor James M. Cox and Franklin D. Roosevelt marched at the head of the notification parade at Dayton, acknowledging the cheers of the thousands who lined the streets. This photograph was taken while the democratic standard bearers were proceeding to the fair grounds where Governor Cox was officially notified of his nomination for the presidency.

PRISONERS RIOT IN MARYLAND PRISON FOR BETTER FOOD

SMASH \$10,000 WORTH OF FURNITURE—YIELD TO LIBERAL DOSE OF FIRE HOSE

(United Press)

Baltimore, Md., Aug. 20—Sixty prisoners in the Maryland penitentiary who expressed their desire for a more elaborate cuisine by staging an all night riot here, went back to their cells today, outwardly subdued, but inwardly yearning for table delicacies.

The prisoners succeeded in doing \$10,000 worth of damage before being rounded up by prison guards, city police and firemen. Shots fired and lustily wielded clubs had no effect on the rioters. Only when treated to a bath from the fire hose did they call off the home grown revolution.

Several hundred went "on strike" two days ago for a greater variety of food. All but sixty returned to work yesterday. They were confined to a special detention building in which the demonstration started. Lights were extinguished, windows and cots broken and continual shouting kept up. Some of the prisoners broke from their cells and released the rest. The prisoners were in complete control of the detention building until they were subdued by the water cure. They were then removed to the main building.

One of the firemen was injured from a blow on the head. The suppression was celebrated by the prison band playing, "Maryland, My Maryland."

INTERNATIONAL COURT TO FIGURE IN CAMPAIGN

(United Press)

Marion, Aug. 20—The work of organizing an international court now being carried on between allies and associated nations with Elihu Root representing the United States, will figure in the campaign, Senator Warren G. Harding stated today. He did not intimate in what way but spoke favorably of Root's work on the project, saying he was working in close co-operation with the allied governments.

ASK R. R. TO HELP PREVENT FOREST FIRES

(By United Press)

St. Paul, Aug. 20—Railroads operating in northern Minnesota today were asked by the state forestry department to employ track walkers to assist in avoiding forest fires. An effort is being made to avoid fires from developing into great conflagrations.

GAS EXPLOSION KILLS TWO PERSONS

(By United Press)

Syracuse, N. Y., Aug. 20—Two persons, possibly more, were killed and eight seriously injured in an explosion which demolished a gasoline service station here today.

FOREST ON DRIFTING SANDS

Frenchman's Ingenuity Has Made of Waste Place a Region of Fertility and Usefulness.

In the southwest corner of France, between the rivers Adour and Garonne, are long stretches of pine woods, green and cool. Where these pines now stand was a barren waste in the middle of the eighteenth century. Sun and wind vied with each other in making the land drier and dustier. Over the stormy bay of Biscay came winds that set up great sand storms and sometimes buried whole villages. But at last there came along a man who acknowledged fate only as something to be overcome. His name was Bremonter and he was an inspector of roads. He began fencing in the desert. He built a fence and behind it planted a handful of broom seeds. Behind the broom seeds he put seeds of the pine. The fence protected the broom seeds and the broom grew. Then the broom in its turn afforded shelter to the delicate pine shoots. Soon the pines spread and their tough roots bound this sandy soil together. The first step was accomplished. Then canals were made to drain the wet parts and carry water to the dry.

Ammonia From the Air.

A syndicate has been formed to establish a nitrogen factory for the manufacture of ammonia synthetically from the nitrogen of the air, says the American Chamber of Commerce in London.

The syndicate has purchased the extensive site in County Durham which the British government acquired more than two years ago for the purpose of building a factory. The capital required will be \$325,000,000.

The process to be adopted, says the American chamber, will be on the principle of the German chemist, Haber. Nitrogen and hydrogen will be combined into ammonia under pressure at a high temperature, the ammonia then being converted into nitric acid or other nitrates as may be required either for the manufacture of explosives or for use as fertilizers.

Must Not Disturb Swans.

Even the highest in the French Republic must bow before the edicts of the French protocol, as Mme. Deschanel, wife of the president, learned when she objected to the presence of five white swans in the Elysee palace ponds. The swans, Mme. Deschanel admitted, were very beautiful, but nearly every morning early they disturbed the rest of the president's household, and therefore she inquired whether they could not be removed. The chief of the protocol found that sixty years ago a clause was written in the protocol which provided that not less than five swans must be kept in the Elysee palace grounds, for the feeding of which the keeper of the presidential gardens was responsible.

the man with a savings account is always at home.

HUNTING SEASON STARTS SEPT. 16

Regulations of the Game and Fish
Laws as They Apply to Hunting
Small Game

BAGS WHICH MAY BE TAKEN

Carry Your Hunting License With
You, Without It You are Sub-
ject to Arrest

The hunting season starts on Thurs-
day, Sept. 16.

That marks the date when wild
ducks, wild geese, coots, rails, galli-
nules, Wilson or jack snipe and great-
er and lesser yellow-legs may be tak-
en and possessed, according to section
59 of the Minnesota game and fish
laws.

The man who figured on Sept. 15 as
opening the season was a "sooner."

The partridge season opens October
15, and chickens are not allowed to
be shot until 1923. No wood duck shall
be taken or had in possession prior to
Sept. 16, 1923.

Migratory game birds may be taken
each day only during the hours per-
mitted by federal law.

Guns carried in automobiles must be
unloaded and carried in cases. All
hunters must carry their licenses
with them. Leaving them home will
not save such a hunter from arrest if
found hunting without a license.

A person may take during the open
season, not to exceed 15 wild ducks,
coots, rails or gallinules, Wilson or
jack snipe, and greater or lesser yellow-
legs, in the aggregate of all kinds and
not to exceed 5 wild geese in
any one day.

No person shall have in possession
at any one time more than 45 wild
ducks, coots, rails or gallinules, Wil-
son or jack snipe, and greater and
lesser yellow-legs, in the aggregate
of all kinds, of which not more than
5 shall be wild geese.

Water fowl may not be taken from
power or sail boats or upon the open
water, or from aeroplanes. Rifles
may not be used in taking water fowl.
Birds shall not be trapped, netted or
snared.

The limit on ducks is 15 a day and
on partridges is 5. These sections of
the game laws were given the Dis-
patch by A. P. Cardie, deputy game
warden of the city.

Former Gaiety Girl Who Is
Marchioness of Queensbury

Marchioness of Queensbury

By the death in South Africa of the
ninth Marquis of Queensbury, sports-
man and patron of boxing, Viscount
Drumlanrig becomes the tenth mar-
quis. With his wife and year-old
child, he is now touring South Amer-
ica. Before her marriage in 1917, the
present marchioness was Irene Rich-
ards, one of a bevy of beautiful ac-
tresses at the Gaiety Theatre in Lon-
don. The marquis was twenty-one
when he married. He served in the
war in the Scottish Black Watch.

Perseverance Class

The Perseverance class of the
Evangelical church of Northeast
BRAINERD will meet at the home of
Mrs. Wm. Webbing, 603 Fourth Ave.,
N. E. at 8 o'clock tonight.

She Can Truthfully Say—

Hay fever, asthma and bronchial
coughs yield to the soothing, healing
properties of Foley's Honey and Tar
Compound as quickly and surely as do
ordinary coughs, colds and croup.
Mrs. Geneva Robinson, 88 N. Swan
St., Albany, N. Y., writes: "I can
truthfully say Foley's Honey and Tar
is the best medicine I ever used." H.
P. Dunn.

Seaweed Largest Plants.

The largest plants in the world are
seaweed. One tropical variety is
known which, when it reaches its full
development, is at least 600 feet in
length.

As you say, Roger, the way of the
transgressor and the path of the un-
righteous are both one-way thorough-
fares.—Boston Transcript.

Greenland.

Greenland was so named because of
the mantle of mosses, grasses, shrubs
and flowering plants which cover it in
summer, literally making it a "green"
land.

FARMER HAS TERRIBLE EXPERIENCE

"I don't think anybody ever suffer-
ed more pain than I have. Twice I
was operated for gall stones and a
third operation was advised. A friend
in Iowa wrote me how he was cured
by taking Mayr's Wonderful Remedy.
I took a bottle on his advice with
good results and have also taken the
full course. My pains are all gone
and I feel I am permanently cured."
It removes the catarrhal mucus
from the intestinal tract, and allays
the inflammation which causes prac-
tically all stomach, liver and intes-
tinal ailments, including appendicitis.
One dose will convince or money re-
funded at Johnson's Pharmacy and
druggists everywhere.

Road Law Easy to Learn.
Highway law is not hard to under-
stand. It is universally recognized as
the clearest expressed and the simplest
system of law on our statute books. It
speaks, not in terms of dead phrasing,
but in simple, direct, forceful language.
Any motorist who cares to do so can
ascertain his legal rights and liabil-
ities in his state in 15 minutes' reading,
and he won't need an attorney to in-
terpret it for him, either.—Chesla C.
Sherlock in Motor.

Worth Cultivating.
Is it not a thing divine to have a
smile which, none know how, has the
power to lighten the weight of that
enormous chain which all the living in
common drag behind them?—Victor
Hugo.

HOW FREIGHT RATES WILL INCREASE PRICES

Freight rates as advanced by federal action will not effect a great increase in the prices of goods, as has been computed by the Southern Pacific railroad.

They figure that a 5 pound suit shipped from New York to San Francisco will incur 23c freight charge. Californians, says a Southern Pacific statement, are willing to pay a freight rate necessary for a reasonable return on the money invested in railroads and to secure good railway service.

Here are some freight rates and their relation to the cost of living as computed by the Southern Pacific, the rates including weight of container and applying from points where articles are manufactured, and based on an average haul of 350 miles.

The figures shown were compiled by the Southern Pacific as a matter of information to their patrons, and to show clearly how much present freight rates add to the cost of wearing apparel, food stuffs, etc. With the information here given, you will be able to visualize the situation in its simple economic phase, and realize, says the Southern Pacific, how insignificant a part the freight rate really plays:

Freight charge on one suit of clothes 10c.

On one suit of underwear 2c.
 On one shirt 1 and 4-10c.
 On one pair of shoes 5 and 6-10c.
 On one man's hat 5 and 3-10c.
 On one pair socks 5-10c.
 On one pound of bacon 4-10c.
 On one pound of flour 5-10c.
 On one can vegetables 1 and 3-10c.
 On one pound of lard 4-10c.
 On one pound of sugar 6-10c.
 On one pound of fresh beef 5-10c.
 On one pound of beef on the hoof 4-10c.

There is one method of charging up prices which the government has not taken cognizance of and that is the reputed plan of the sugar profiteers who send a carload of sugar all over the country before final delivery, each agent at each sale charging up his profit, so that the consumer in the end pays a price a way out of reason.

ABOUT PROFITTEERING

The Dispatch has had so many people run in and say the government had at last taken action on profiteering and that various merchants in the county, so it was rumored, had been caught profiteering and had been fined big sums, that the Dispatch has written the federal authorities for names, offenses and dates, if any acts of profiteering have been committed.

If Attorney General Palmer has started something, if he has caught any one in this section profiteering, the public has a right to know who has been doing it.

But no paper can and will publish mere rumors. There must be legal action of some kind to base a story on.

IMPROVING STREETS

The system put into effect after Thursday's rain, in having a large army truck pull a grader over Brainerd streets and thus fill in holes, has been beneficial in a way and shows city and county have not entirely neglected the city.

Due to one thing or another Brainerd streets are getting a lot of mention as being the worst in the United States. If the city will treat them with merely the consideration afforded country roads where log drags are used it will tend to better streets in Brainerd and show tourists that the city is at least trying to do something.

Mystery Solved.
 A moving picture bears the interrogation title, "Whom am I?" Easy! You're Cyril.—Boston Transcript.

NORTHWEST NEWS

Big Apartment House

Watertown, S. D., Aug. 20—A Watertown citizen is now erecting one of the largest dwelling houses in this section of the state. It contains apartments for forty families. It was built for Robert Schull, a Codington county retired farmer at a cost of approximately \$75,000.

Elks Convention at Virginia
 Virginia, Minn., Aug. 20—Minnesota Elks assembled here today in annual convention. Matters for the good of the order and reports of committees attendant at the national convention held in Chicago recently will be discussed. The convention adjourns August 21.

The convention was scheduled to open in St. Cloud, but due to a delay in construction of the Elk hotel there, a last minute change was made.

Minn. "U" Prof. Goes to France
 St. Paul, Minn., Aug. 21—Malcolm S. McLean, instructor in the department of rhetoric, University of Minnesota, will sail for France late in September where he will study at Sorbonne University. He intends to spend two years there studying modern literary criticisms.

FEW IDEAS OF REAL VALUE

Wireless Telegraphy and Telephony Are Still Comparatively in the Stages of Infancy.

"As every one knows, it is a comparatively simple thing to get a patent on anything, so long as you have a good patent attorney and are able to incorporate a few new kinks into your device. But such a thing as a really new idea, not to speak of a basic one, is scarcer than the proverbial hen's teeth."

Thus H. Gernsback, in the Radio Amateur News, comments on the rarity of anything new in wireless telegraphy or telephony. Inventors, he says, content themselves with making improvements in existing devices. These are good, but inventors should not get the idea that the last word has been said in basic principles. He says some one will probably discover a more sensitive detector than the vacuum tube; some one will devise a better transmitter; some one will invent a receiver that makes use of the eyes instead of the ears. "Get off the beaten path," he says.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine.

Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous surfaces, expelling the Poison from the Blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials free.

At the Best Theatre Tonight
 An appealing story dramatically told, a popular star and the elaborate production for which Universal is noted, contribute to the success of "The Rider of the Law," which opens tonight at the Best theatre. Harry Carey is the star.

The story was written by G. B. Lancaster, the widely known British author. It was adapted to the screen by H. Tipton Steck and produced by Universal under the direction of Jack Ford.

As Jim Kynston of the Rangers, the star finds himself strangely involved with men who are stealing gold ore from the Midas mine. One of the men is his half-brother.

How he abides by the oath of his office as a ranger, yet smooths out the rough path for the men around him

who have strayed from the straight path, is the theme of the story.

Excellent stereoscopic photography by John Brown, the admirable direction and the star's sincere dramatic work makes "The Rider of the Law" a very enjoyable offering.

The supporting cast is notable with the presence of Gloria Hope, Claire Anderson, Jennie Lee, Vester Pegg, Ted Brooks, Duke R. Lee, Joe Harris and Jack Woods.

"The Rider of the Law" will be seen at the Best Theatre Friday and Saturday.

For Vacations and Summer Trips
 Strange food, hurried eating when traveling, too heavy diet for hot weather—numerous causes contribute to deranged digestion in summer time. Salts and castor oil are all right, but many persons cannot take them. Foley Cathartic Tablets act surely and gently, without griping or nausea. H. P. Dunn.

HARRY CAREY

in

"The Rider of the Law"

LOVE SPEED? LOVE ACTION? LOVE ROMANCE?

Then take your whole family and see—Harry Carey—in "The Rider of the Law." See how unfair some people are—learn how ingratitude breaks a man and how square dealing makes a man. Here's a play so fine—so good—so entertaining and—so human—that after you've seen and enjoyed it you'll agree with us, as millions of photoplay fans already do, that Harry Carey is easily the peer of all western actors on the screen. Come enjoy this fine story of love and western punch.

CHIROPRACTIC + NATURE = HEALTH

It may not be proper to classify Chiropractic alone, since it is a part of Nature—a natural process of keeping fit.

There is nothing new or revolutionary to Chiropractic adjustments. They are now as they have always been, a part of the natural system which aboriginal people use to keep their bodily processes normal.

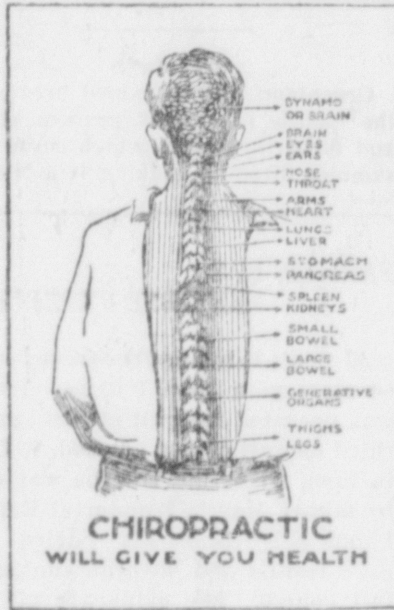

Chiropractic adjustment remove the cause of disease, which is pressure upon nerves by segments of the spine that have been misaligned from their normal position.

The Chiropractor restores the offending vertebrae to normal position in the spine, relieving the pressure, and Nature restores Health and Normality to the body.

We will be glad to tell you frankly just what Chiropractic adjustments will or will not do in your case. See us today.

The How and Why of
Caloric Pipeless Heating

The CALORIC is not a pipe furnace with the pipes left off. Neither is it an experiment, hastily put together to meet a demand. It is specially designed to heat homes, halls, churches, stores, factories, etc., more uniformly, economically and satisfactorily than they have ever been heated by other systems.

The CALORIC works thru Nature's own laws of circulation by air currents. Warm air rises. Cold air falls. Warm air and cold air cannot occupy the same space at the same time.

HERE'S THE SECRET

In the same volume that the warm air is pumped up into the house, an equal amount of cold air is drawn into the furnace, where it is heated, moistened by the vapor from the gallon water pan, and then recirculated through the register. This continues as long as the fire burns.

Thus there is a constant circulation of properly moistened warm air. Just as running water purifies.

CALORIC
FURNACE

The Original Patented Pipeless Furnace

fire itself, so this circulating warm air, passing thru heat of from three hundred to eight hundred degrees, in which no germ can live, is kept pure and healthful.

The CALORIC is guaranteed by the oldest and largest manufacturers of warm air heating systems in the United States. You take no chances when you buy a CALORIC.

Whether your house is old or new, the Caloric is easily installed in one day, without interruption of your present heating arrangement. No holes knocked in your walls, no cellar full of heat-wasting pipes. The Caloric requires but one register and occupies little space. It burns any fuel, and needs hardly any attention. Makes housework one-third easier, as there is no mess from carrying in coal and carrying out ashes—no smoke, gas or soot. Eliminates fire danger and increases the value of your property.

Visit us and we will gladly supply full information without the least obligating you to buy.

WANTS A HIGHER RATE FOR GAS

A. G. Whitney Replies to the Citizens Committee on Setting of Gas Rates for City

ORDERS REPAIRS POSTPONED

"Personally" Writes Mr. Whitney, "He Would Much Prefer to Sell Plant to Brainerd"

The citizens committee has received this letter from A. G. Whitney, president of the Brainerd Gas & Electric company, in response to the committee's report on action of the gas consumers' meeting and of the city council.

August 19th, 1920
Messrs. Con O'Brien, Chairman,
M. E. Ryan,
Carl Adams,
Gas Consumers Committee,
Brainerd, Minnesota.
My Dear Sirs:

We fully appreciate your letter of August 17th and are not unmindful of the position in which the gas consumers of your city are placed, and deeply regret that the accident at the plant occurred causing a shut-down at this time.

Upon going into the questions involved more fully, we find that in order to put the Brainerd gas plant into A-1 working order with all of the necessary repairs and including the new boiler which we wish to install, it will be necessary for us to expend at this time a sum considerably in excess of \$10,000. We have just learned that the removal of the flues alone, which are necessary for the boiler, will cost us \$450 f. o. b. Minneapolis. If these repairs and improvements are made we believe the plant will be in most excellent shape and with a dependable water supply that we would be in a position to give first class service.

However, to be perfectly frank and open, we have reached the conclusion that as outside investors we cannot operate the Brainerd Gas and Electric Company at a profit and for that reason we cannot see our way clear to start up the plant again ourselves unless every requirement necessary is complied with before resuming operation and, with that object in mind, we are today writing our local superintendent to postpone further repairs and improvements until every detail has been definitely settled.

We submitted to your committee last Monday night before you met the gas consumers and went to the council meeting, the lowest rates under which we could operate, namely, a minimum bill of \$3.00 per month and a rate of \$3.25 per thousand cu. ft. These figures are net and the bills would necessarily have to be rendered at not less than \$3.50 per thousand cu. ft. with a discount of 25c per thousand cu. ft. for the prompt payment of bills with a minimum of \$3.25 per month, subject to a discount of 25c for the prompt payment of bills.

However, with reference to the minimum bill, we would not object to accepting a net minimum bill of \$2.50. These figures are final and are made with the express understanding that if the cost of coal, coke and oil increase, we will add 4 1/2c per thousand cu. ft. for every advance of 1c in the cost of oil, 2 1/2c per thousand cu. ft. for every advance of \$1.00 per ton in the cost of coal and 2 1/2c per thousand cu. ft. for every advance of \$1.00 in the cost of coke.

The above rates do not provide for all of our interest charges and for none of the depreciation, hence if the cost of fuel goes down, the \$3.25 net rate is to be continued until such time as our losses are fully made up so as to take care of the depreciation charges from this date on. When these depreciation charges and other losses are taken care of at 100c on the dollar, we will then lower the rate of \$3.25 net per thousand cu. ft. in the same proportion as it would be increased in case of an increase in the cost of oil, coal and coke as above noted, until the rate has been reduced to \$2.00 net per thousand cu. ft., but the rate never to go below \$2.00 net per thousand cu. ft.

These rates do not provide \$1.00 for an administration, supervision, engineering or bookkeeping expense at the St. Cloud office excepting \$10 per month, and this is an expense that as soon as the company is again squarely on its feet must be met by the company.

Gentlemen, if it were possible to accept your proposition we would do so without hesitation, but after having lost something over \$42,000 in your city we feel that we must protect ourselves for at least from this date on.

Again, his plant cannot be started without considerable cash being put into it and the Brainerd Gas and Electric Company is not in shape to finance itself for so much as a single dollar, unless the citizens of Brainerd, coupled with myself individually, will see fit to provide the Company with sufficient money in some satisfactory and equitable manner to put it on its feet with a small sum of working capital, \$10,500 of outside indebtedness, and the necessary money to take care of the repairs and start up the plant.

Personally, I would much prefer selling this plant to the citizens of Brainerd and it might be well for the business men of your city to consider this in a very serious way. We will sell you the property on the following basis: that you select an engineer, we will select one to represent the Company, and these two can select a third, all three of these men to be high class gas engineers and after these men arrive at a valuation of this property, we will give you a

liberal discount from that valuation.

We will also make this same proposition to your city, if the city sees fit to buy it, and, strictly speaking, why is it not better for your city to buy it and operate it in connection with your other municipally owned property, namely your electric and water works utilities, and in that way your city council can make its own rates and the city as a whole, can make up the losses through its taxes. There is one thing sure, the loss of the gas plant to your city is a serious one and it will probably mean that no private parties will ever again have the courage to enter the gas field in Brainerd.

Feeling that we should not spend any more money at the plant until this matter is settled, we are going to put this matter in your hands for acceptance or rejection and I would ask that you let us have your decision at the earliest date possible.

The rate above stated, \$3.25 per thousand cu. ft., will be subject to an adjustment every four months, it being understood that if the prices of coal, coke and oil go higher, the rates will be enough higher for the next period or periods to cover the additional cost.

Again, and after the depreciation charges and losses from this date on have been met and as the prices of these commodities go lower, the prices are to be decreased accordingly.

If our proposition as stated meets with your approval, we will prepare an amended franchise and submit it to your city attorney for his approval. It will be necessary that definite action be taken before we can proceed further.

Awaiting your reply, I am
Very truly yours,
A. G. WHITNEY,
President.

Housework This Month
Housework is trying at any season of the year but particularly so in August. Women suffering from backache, lame muscles, stiff joints, rheumatic pains, biliousness or other symptoms of kidney trouble will find relief in Foley Kidney Pills. They give relief from irritating bladder ailments. H. P. Dunn, mwf

She Objected at Last

He had just gone into the grocery business and did nothing except talk "shop-shop-shop" when he went to see his best girl. At first she endured it because she did not wish to offend him; later merely because she could find no way to reprove him.

But her chance came. One night when he was at her house he picked up the telephone book and began idly to glance through it. His idle manner became one of interest as he scanned one page. Then her wrath overcame her. "It's been bad enough to hear you talk about nothing else but that old store," she stormed, "but it's too much for you to come to my house and go through the telephone book hunting out prospective customers."

CHECKING UP OF ICE CREAM AND

BRAINERD'S ODDEST STORIES

Pete Wolver, of the yards, has a hard luck story. It concerned washing dishes while his wife was out of town. That was in the days, some time past, when Brainerd had gas and Pete had bought one of those "locomotive" washers. Pete puts the dishes in the washer and they slushed around beautifully. Just about that time he was called away and when he came home some hours later, the washer was still chugging away and the dishes had followed that figure eight route in the washer and had been reduced to smithereens.

Most of the troubles of life center on some little things, as one neighborhood has found out where a bunch of kids starts playing at 6 in the morning and races their wagons up and down the cement paving, thus shutting off all slumber.

Sixty days more and householders will be figuring on winter and looking at their coal bins. The wise and industrious man has worked like a squirrel and has his bin full of something else besides coals.

It has been hard to get the Brainerd band to do any playing up to Sept. 1st. The hunting season starts Sept. 16 and the large majority of the band would rather chase ducks than play sixteenth notes in the red band book.

Bids Wanted
The Board of Directors of Rose Creamery Company will receive offers up to Sept. 1st, for the purchase of its Creamery Building in Section 7, Township 43, Range 30, and site. Address offers to Anton Weber, Brainerd, R. 1.

A Safe Medicine for Children
Children who throw covers off at night, play in water, and neglect ordinary precautions are likely to catch cold in summer. Summer colds are wearing and weakening. Foley's Honey and Tar is a genuinely good cold, cough and croup medicine for children because it contains no opiates. H. P. Dunn, mwf

HARD HITTING PEQUOT

To Battle Speedwells at the Koering Field on Sunday, August 22

The hard hitting Pequot nine will be down Sunday with a strong lineup to play the Speedwells, on the Koering grounds, and one of the fastest games of the season is promised the fans, who take the opportunity to see the Speedwells on the local diamond for the last time this season.

The last time these two teams met, the game was called in the tenth inning account of rain, the score then standing 2-2. Pequot also defeated the fast Backus nine for a side bet of \$400 on August 8.

The Speedwells will be strengthened Sunday and are out to win the last home game of the season, so all real baseball fans, who wish to see a good clean game will be in the grand stand by 5 o'clock Sunday, as the game will be called at 3 p. m. sharp.

Do not fail to see the last and best game, which will be played on the local diamond Sunday, August 22. Major Elkins will be the official umpire for the home team, and promises to keep the game running snappy and to give both teams fair decisions at all times.

Admission to game including grand stand 50c.

There Are Things Which Money Cannot Purchase.

Man Who Made That Assertion Proved His Case, Though Many Have Long Held a Contrary Opinion, Says an Exchange.

A group of men were discussing, over the luncheon table, the purchasing power of money. One of them, especially, waxed eloquent upon the subject. "There is nothing money will not buy," he said positively. One man took exception to this statement. "Money will not buy health," he asserted.

"Wrong!" said the first. "There is many a poor man or woman who, if they had money to pay for proper treatment, would quickly regain their health. In many instances, money will buy health."

"Happiness, then—" "Wrong again. In rare instances money will not buy happiness, but in the majority of cases, yes. The possession of money means time for rest, recreation, study, travel—many things, all of which give happiness. I'll tell you," leaning across the table earnestly, "write down, if you can find them, four things that money will not really buy, and for each one I will give you a thousand dollars."

The next day, at luncheon, the one who was challenged handed the other a slip of paper. After reading it, the man without a quibble handed his friend four \$1,000 bills. This is what was written on the paper:

1. A Baby's Smile—A baby's smile can never be purchased by offering it money. To the soul that has so lately come from the place of the unborn, the means of exchange of this world offers no appeal. A mother's kiss, a father's caress, a flower, a brightly colored toy, may win a baby's smile, but you cannot bargain for that smile with gold.

2. Youth, When It Has Gone—"The mill will never grind with the water that has passed." The flush of youth, the luster of the eyes of a boy in his teens, the carefree happiness of the maiden, when the years have brought maturity, can never come again. Ponce de Leon in his quest for the spring of eternal youth realized that fact. He knew that youth, once gone, could never be bought again. Money will not purchase its return, even if heaped in piles of millions, and the spring for which the knight so diligently searched to insure against the ravages of time was never discovered.

3. The Love of a Good Woman—

Love, like a baby's smile, cannot be bought with gold. Many a woman has simulated love for a dowry with a husband thrown in, and practiced the deception successfully for years, but true love, of the kind which lasts eternally, cannot be purchased. The love of a pure woman is held by her as the most sacred gift which she can bestow. It is not to be bought with gold, or silver, or precious stones. It is given freely to the man she loves.

4. Entrance Into Heaven—There is an old saying that "shrouds have no pockets." Money, which will purchase nearly everything in this world, cannot be taken to the next and used as a means of entrance into heaven. The keeper of the portals of the heavenly city is not susceptible to a bribe. There, at least, money has no value.—Frank Dorrance Hopley in Dearborn Independent.

Breaking It Gently.

A fondness for backing an occasional winner was one of Bill's weaknesses; that his selection didn't always come home first couldn't be blamed on him.

After a certain race, he got home rather later than usual, to be met at the door by his wife, her face distorted with rage. He knew the signs, and sank into a chair, content to wait till the clouds had rolled by. When at last she had to pause for want of breath, he remarked casually:

"I say, Nell, ye likes to 'ear 'o people winnin' lots o' money, don't yer?" Visions of new hats and even a dress floated before her dazzled eyes, so the woman forced a smile to her lips and replied:

"That I do. Tell me all about it." "Well," he said, as she nestled close to him, "a bookmaker's been an' gorn an' won all me wages this week."—Answers, London.

Material for Bridges.

Bridges now needed in national parks and forest reserves are to be built of the steel girders and trusses, and other bridge material, which was ready to be shipped to France, for the use of the American army, when the war ended. There is a vast amount of this material on hand, ready drilled and quite portable, 2,856 pounds being the maximum weight of any part.—Popular Mechanics Magazine.

Burden of Public Debts.

The annual interest on the debt of Great Britain is 12.92 per cent of her income, that of France 32.17 per cent, that of Italy 14.43 per cent, that of the United States 2.53 per cent, that of Germany 20.96 per cent, that of Austria 25.92 per cent, that of Hungary 24.78 per cent, that of Bulgaria 21.80 per cent, and that of Turkey 17.90 per cent.

Movies Everywhere Triumphant.

Mexico, we read in current dispatches, has decided to lift the heavy censorship from the movies and to foster the enterprise in every way. There seems to be no stopping the triumphant march of the movie stars, says the Philadelphia Record. Not long ago we read that Devonshire house, the famous rendezvous of the whigs in London, had fallen before the cinema. The Alhambra and the Empire, famous music halls, are to go, too. England and the continent appear to be as wild for the screen as we are here. All doors are opening to it. Not long ago the conservative Vatican sanctioned the picturing of an important religious function. Great are the movies!

Collie's Heart Touched.

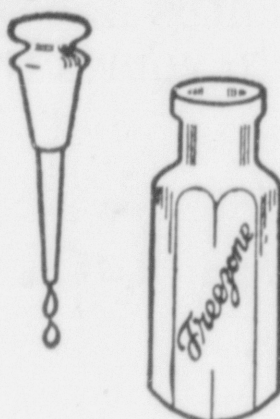

A collie dog, four years old, owned by Omar Cunningham of Farmington, Me., is a most inveterate foe of woodchucks, furious in the work of digging and annihilation, but she came home the other day carefully carrying in her mouth a baby woodchuck, which she has since cared for as tenderly as if it were one of her own puppies.

The Goddess Vesta.

Vesta was the goddess of the home and fire, and her temple was the oldest in Rome. It contained no image of the goddess, but had a fire which was rekindled by friction on the Roman New Year and attended constantly by the vestal virgins.

"CORN"

Lift Right Off Without Pain

Doesn't hurt a bit! Drop a little "Frezzone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Frezzone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

True Standard of Manhood. Man comes to himself only when he has found the best that is in him and has satisfied his heart with the highest achievement of which he is capable. That alone to him is the real measure of himself, the real standard of his manhood.—Grit.

Brazilla

The "Cheer-Up" Drink

The kiddies love Brazilla and it is good for them because it is pure and wholesome.

The "cheerfulness" ingredient that makes you feel like smiling all over when you drink Brazilla, is a tonic stimulant which is good for everybody.

High authorities recommend it. It is called Yerba Mate, and is the universal drink in Brazil. The U. S. Government in a report, praises it highly and calls it "the drink that cheers but does not inebriate."

Try it at any soda fountain. Also bottled aerated for home use, or you can get the Brazilla Syrup from your druggist or grocer. Delicious with plain water.

THE BRAZILLA COMPANY
Minneapolis, Minn.

When the Machine Slows Up

The kidneys must be in good order if a man or woman past middle age is in prime condition. Weak or disordered kidneys bring on backache, lame muscles, stiff joints, rheumatic pains and other afflictions. Foley Kidney Pills are a good first aid to the kidneys. They heal, soothe and invigorate. H. P. Dunn. mwf

DID YOU SEE AND HEAR THE BOOSTERS?

In a recent trade tour through Minnesota and North Dakota they traveled 1,380 miles, visited 80 towns and compared notes with 100,000 people.

They represented the business interests of the capital city of Minnesota, and among them was a correspondent from the St. Paul Pioneer Press and Dispatch—and here is what they said about him and the service he inspired:

Winger, Minn., July 21—Permit us to congratulate the Pioneer Press and Dispatch for their splendid reports of the trade tour.

The delivery of the Pioneer Press and Dispatch was indeed a perfect twelve-hour service. Such reports and service as rendered by your papers makes the trade tours as good as they are. Your correspondent's work shows for itself in print.

(Signed)—R. P. Warner, Gus Zenzius, Gil Wood, Harry M. Lewis, Louis F. Dow, S. S. King, A. L. Preston, John Nicollin, A. P. Kennedy, E. G. Quamme, F. L. Madden, Ward L. Tilden, N. P. Rogers, D. E. Weigle, P. S. Sommers, A. W. McNeer.

This appreciative letter refers to only one item of our big system of service—but it serves to show prospective subscribers what the leading newspapers of the Northwest can offer them in the way of prompt and complete reports of all happenings of interest.

Become a subscriber today—keep posted on the doings of the world and provide your family with good reading matter. The Sunday edition, alone, is worth the money.

Just send us your name and full address, including postoffice, and we will advise you the best service we can give you and the price of subscription. Write today.

and St. Paul Sunday Dispatch

North East West South

Supposing that, beginning tomorrow, all the newspapers are discontinued. What a furore the public would make. "News! News! We must have news or we will be no better off than the ancients." "All right, suppose we give them news but cut out the advertisements."

Then we would discover that politics, the doings of society, notices of fires, accidents, deaths, scandals, sports, the activities of the police and criminals add little or nothing to the real comfort and happiness of this greatest age in the world's history.

What geni are they that have crowded the last fifty years with so much of advantage to humans? They are legion in number, but not least among them is Advertising.

Our day is the greatest time the world has seen because we have more to be happy with, better things, greater variety, greater comforts gathered together from the North, East, West and South for our choosing and selection. Look about you. This is the day of better food, better homes, better clothing, better babies, better health, better business. And advertising is the instrument that makes these better things possible.

Advertising is the NEWS of all the looms, of all the furnaces, of all the laboratories, of all the shops, of all the stores, of all the world and all working for you.

Because of advertising, luxuries and necessities that once cost a king's ransom are yours at little prices. Advertising pits merchant against merchant, artisan against artisan, producer against producer, for your benefit, forcing out the best there is in everything and telling the world about it.

Read advertising. Keep abreast of today. Advertising furnishes you with facts and opportunities that you would otherwise never know.
